

# Lightweight stainless steel galley furniture

1. Stainless steel interior
2. Removeable shelf
3. Removable fiddles
4. Rear panel, removable from front for access to services
5. Overlay door with adjustable concealed hinges
6. Robust metal slam locks
7. Choice of door knobs
8. Epoxy coated lightweight foam core
9. Stainless steel inner door
10. External door to match galley joinery

Our range of lightweight stainless steel furniture is specifically designed to create professional galleys on performance motor and sailing yachts up to 50 metres. The furniture is designed with the aesthetic needs of open plan galleys in mind, yet provides the same professional hygiene standards as required on larger Superyachts with their fully dedicated professional galleys.

These cabinets feature fully lined stainless steel interiors, as well as a stainless steel inner door construction with a separate outer panel allowing it to perfectly match the yachts joinery. The welded and fully sealed interiors provide robust and easy-to-clean galley storage, whilst also reducing the chance of infestation of food-stuffs.

The stainless steel interior is bonded to an epoxy coated marine grade foam core that creates a rigid and lightweight carcass which is ready to be integrated into the yachts joinery.

A wide range of base, bulkhead and tall units, in various dimensions, as well as drawer options, are available. All are perfect to make up the core of a professional galley especially when combined with GN Espace bespoke fabricated worktops and sinks.

- Stainless steel lined cupboards and wall units in a wide range of dimensions. Drawer block options available
- Fully wrapped and welded stainless carcass front edges and interior to meet strict European professional catering hygiene standards
- Heavy duty stainless steel shelves. Removable.
- Removable shelf fiddles
- Lightweight construction—approx. 15kg for 500mm wide base unit.
- Overlay door design with soft close concealed, fully adjustable furniture hinges
- Composite door construction. Stainless steel interior, outer door finish optional to match galley aesthetic
- Wide range of door knobs available. Metal slam shut closures.
- 3/4 height removable interior back panel. Removeable from front of cupboard to access services.
- Rigid composite sandwich construction—304 grade brushed stainless steel/marine grade PET foamcore panels with epoxy coating ready for bonding in.

## Complimentary items

To compliment the lightweight stainless steel cabinets GN Espace also have ready to fit gimballed cooker box housings. They feature stainless steel interior with a foam core outer and come complete with correctly positioned gimbal blocks and harbour locks ready to accept our wide range of gas and electric gimballed marine cooking equipment.

Bespoke worktops in stainless steel, Corian or stone are also available from GN Espace.

Using the latest CAD controlled CNC laser technology and craftsmanship we create custom made stainless steel worktops that enhance any superyacht galley.
