Commercial marine galleys

GN Espace have joined forces with Promart, the UK's leading provider of commercial land-based and marine foodservice solutions, to create a specialist team purely focussed on the needs of Marine and Offshore galleys.

This collaboration allows us to strengthen our capability and expertise in the design, specification, fabrication and fit out of marine galleys.

As well as supplying an extensive range of galley equipment to meet the exacting needs of professional chefs, we can also provide refrigeration, laundry and canteen serving solutions from leading

manufacturers. The galley equipment is specially designed for the rugged needs of a working marine environment where reliability, performance and safety are the primary considerations. Our wide range of galley equipment meets the needs of small coastal workboats through to the largest offshore accommodation blocks. GN Espace supplied galley equipment is designed for marine use in the harshest environments and there is a wide range of SOLAS commercial specification equipment to choose from. As well as being extremely durable and good looking, Promart galley, servery and mess furniture also meets the most stringent international hygiene standard.

With over 30 years of experience to draw on, Promart has established itself as a market leader in the foodservice sector. All projects, whether on land or sea (cruiseships, offshore facilities) carry the same hallmark – innovative design and highest quality workmanship. Constant investment in the latest CAD driven CNC cutting and routing equipment, together with a team of quality focussed engineers and craftsmen, gives Promart the manufacturing edge that is unparalleled. In house capabilities include full design, stainless steel fabrication, joinery and a complete fit-out service.

A wide range of equipment allows GN Espace to provide tailor-made solutions for:

- Galleys
- Serveries and mess rooms
- Bar equipment
- Food transport
- Cold rooms
- Laundry equipment
- Workshops
- Waste management

Tailor each project to your exact needs

Lightweight galleys

The GN Espace range of lightweight stainless steel furniture is specifically designed to create rugged professional galleys on fast workboats where light weight is required, yet also needing to provide the same professional hygiene standards as found in larger professional galleys.

These cabinets feature fully lined stainless steel interiors, as well as a stainless steel inner door construction with a separate outer panel allowing it to perfectly match the vessels joinery.

The stainless steel interior is bonded to an epoxy coated marine grade foamcore that creates a rigid and lightweight carcass which is ready to be integrated into the galley.

A wide range of base, bulkhead and tall units, in various dimensions, as well as drawer options, are available. All are perfect to make up the core of a professional galley, especially when combined with our fabricated worktops and sinks.

Professional galleys

Our Promart commercial galleys will meet the needs of the most exacting chef and vessel operator, both in terms of functional work-flow and life time value.

Attention to detail in design and fabrication means that appliances perfectly integrate with the furniture. As our galleys are made for each individual vessel you can choose from a wide range of hygiene levels, door hinging and locking methods, as well as colours and finishes.

Working together with leading manufacturers and fabrication partners allows us to tailor each project to your exact needs.

GN Espace is the marine industry sole distributor for **Rieber**, the leading German manufacturer of professional catering systems. We offer an extensive range of sinks and serving solutions based around Gastronorm dimensions, and a wide choice of the containers themselves.

GN Espace also supplies a full range of galley, hospitality and laundry equipment from **Metos Marine** – a world leader of the highest quality marine catering equipment available. Metos Marine has supplied more than 2500 commercial vessels worldwide including the latest generation luxury cruise ships.

We are the sole distributor to the superyacht and marine industry for **Berbel Abluftechnik** – a leading manufacturer of highly innovative galley ventilation systems.

We supply **Miele Marine** specialist commercial laundry and dishwashing equipment. Miele appliances offer unparalleled quality and reliability and are regarded as a global benchmark.

MKN cooking equipment is synonymous with the ultimate in professional galleys. Their bespoke construction and use of the latest cooking technology can make the MKN cook suite the ideal working heart of any large galley.

GN Espace truly provides a complete, fully scaleable one-stop solution for any size of commercial galley installation.
